

PyCon au 26

Sponsorship Prospectus

Updated September 19, 2025

For 15+ years, PyCon AU has been welcoming people from across Australia and the world, to connect, share and learn.

As a not-for-profit, volunteer-run event, our sponsors provide critical support to ensure our continued success.

PyCon AU will be held in Brisbane in 2026 from August 26-30.

Hosted at the Sofitel Brisbane Central, there are lots of ways you and your organisation can participate as a sponsor.

About PyCon AU

PyCon is a global conference community for developers using the Python programming language and is a must-attend for hundreds of technologists worldwide. PyCon AU brings together people from diverse professional backgrounds to share their knowledge and experience with our vibrant, welcoming community.

Workshops

Main Conference

Sprints

Specialist Tracks

Sponsor Exhibition

Workshops

Sponsors and invited trainers facilitate hands on learning and training sessions for attendees.

Workshops are intended to be free-or-cheap to attend and give take-home skills to participants.

Workshops are a fantastic way for your company to teach valuable specialist skills as well as show how to apply those skills to your product or technology.

Specialist Tracks

Curated content from interest groups within the Python community hold their own individual 'miniconf'. Specialist tracks are a draw card for several industries and communities.

In 2025, the specialist tracks were:

- Data & AI
- Education
- Scientific Python

A public call for tracks will be made in late 2025 before an early 2026 call for proposals.

Main Conference

Invited local and international speakers will open and close each day, with the main conference schedule running in three tracks.

Talks cover a wide range of topics, including technical deep-dives, high-level overviews, retrospectives and much more.

The conference schedule is expected to be published no later than June 2026.

Development Sprints

'Sprints' are open development space where attendees collaborate on open source projects. Sprints foster collaboration and mentorship between experienced maintainers and new developers across the open source ecosystem.

Sprints follow a free-form schedule self-organised by project maintainers, often sparked by talks & conversations during PyCon AU.

Community & Inclusion

PyCon AU is an inclusive event which invites diverse groups of people in the Python community to gather in an environment of respect, welcomeness, and encouragement.

Outreach initiatives include a wide-ranging financial assistance scheme, and a call for papers process that focuses on providing a rich and diverse speaker list across many fields of interest.

PyCon AU has an enforceable code of conduct, with all complaints treated confidentially and seriously.

Financial Assistance

PyCon AU is attended by a diverse community of delegates, including professionals working with Python, but also enthusiasts and students, attending for their own interest. However, many Python developers cannot afford to attend the conference.

PyCon AU creates access and opportunities by running a generous financial assistance scheme. Costs covered can include registration, accommodation and in some cases travel.

Sponsorship is critical to the Financial Assistance Program. Sponsoring PyCon AU directly contributes to the access & opportunities that can be created and has been a well recognised and valued pillar of the Python community for many years.

Speaking at PyCon AU

PyCon AU is recognised globally for its high-quality program of talks. We maintain this reputation through an independent process*, through which most talks are selected.

Our attendees are curious and actively looking for new and better ways to build, maintain and deploy their projects. Attendees expect technical talks that are interesting and educational, above and beyond a product demo.

We'd like to collaborate with sponsors to have **high-quality talks or tutorials as sponsored sessions** which will be part of the published schedule. A limited number of sessions are held in reserve for sponsors until May 2026.

Talks are recorded and collectively attract over **270k views** every year. The organising committee is available to help sponsors craft a high-impact session in partnership with you; and we're also happy to extend this offer to your customers and partners.

* A public Call for Proposals will be announced in early 2026, with the program to be announced by June 2026.

Exhibition

PyCon AU attendees have grown to love the sponsor exhibition, as it's an opportunity to connect with the industry at large (and win some prizes too of course)!

All sponsors (except digital and in-kind sponsors) will have a chance to exhibit and connect with PyCon AU attendees throughout PyCon AU.

Exhibition includes lead scanning, and data includes name, email and affiliation/organisation.

Workshops & Talks

Sponsored workshops routinely sell out and attract waitlists. Sessions delivered by sponsors also attracted extremely high praise from attendees.

Talks are a chance to teach deep foundational skills and technology to attendees. And of course, show how it applies to your product or service.

Attendees at PyCon AU expect high quality educational content, not just a product demo. Sponsored talks with exciting and impactful abstracts regularly attract standing room only crowds.

The PyCon AU team is eager to collaborate with sponsors to advise and curate the right balance of technical depth and commercial/product demo.

PyCon AU 2024

The PyCon AU 2025 review will be published in October 2025.

Facts & Figures

PyCon AU's 15th conference welcomed over **560+ registrations** across **5 days**, including some attendees who discovered PyCon AU on the day as walk-ins!

We had **103 presentations** including 26 lightning talks, 8 deoops lightning talks & 9 student showcase talks.

About our attendees

Location: The vast majority of attendees live in Australia. PyCon AU also welcomed attendees and speakers from New Zealand, Singapore, India, Hong Kong, UK, and USA.

Experience: On average attendees had 9+ years experience writing Python code, and 16+ years of experience with any programming language.

Gender*: PyCon AU prides itself on its welcoming and inclusive community. In 2024, 67% of attendees were male, 25% of attendees were female, 8% of attendees self-identified as gender diverse (including non-binary, transgender, queer or other).

*Data extrapolated from optional attendee survey; 322 respondents total, with 37 unique answers to describe gender identification.

Sponsorship Packages

Sponsoring PyCon AU puts your company front and centre with the Python community in Australia. It's also the best way to access the most enterprising Python programmers in the country.

Company Sponsorships

Community Sponsorships

Company Sponsorship

Sponsoring the conference is an exclusive opportunity to position your organisation in front of Australia's most innovative technical decision-makers, architects, and developers.

All packages include:

- Tickets to attend PyCon AU 2026
- Inclusion on website & social media
- Highlights at plenary sessions
- Metrics, reporting & media to support your internal reporting post-conference
- Attendee lead collection opportunities

Plus:

Thinking creatively? Do something fun and custom! We're flexible and would love to collaborate on your unique idea!

With six tiers of sponsorship opportunities, there are lots of options for your company to participate in a way that suits you best!

See the full list of sponsorship packages, options and add-ons on the following pages.

Company Sponsorships

Diamond Python Sponsor

New in 2026, the Diamond Python sponsorship is an exclusive opportunity to “present” the conference.

We'll work closely with you to co-create the PyCon AU 2026 brand placements that suit your brand goals.

Diamond Python sponsorship includes:

- All benefits of a platinum sponsorship
- “PyCon AU proudly supported by” recognition
- Prominent brand placement throughout the conference
- A complimentary talk or workshop.

The Diamond Python sponsorship is the only way to guarantee your company will be the most prominent product, platform or brand at PyCon AU 2026.

Let's discuss about how we can tailor this package to your 2026 goals!

Company Sponsorships

Sponsorships In-Kind

Some organisations can't make it to PyCon AU in person but still wish to give something back to the community. Our Digital Sponsorship is available as an in-kind sponsorship* for companies offering giveaways or campaigns of equal or greater value.

We ask Sponsorships in-kind to please:

- Commit before 30 June, 2026.
- Make offers available for at least 30 days post-conference.
- Have a clear and prominent privacy policy if requesting any contact or PII from PyCon AU attendees.
- Make offers available to delegates with no upfront or ongoing billing commitment (i.e. trials with card on file offers).

*In-Kind Digital Sponsorships do not include any on-site benefits such as tickets or banners.

Talk to us today about how we can shape your digital campaign to PyCon AU 2026 attendees!

Company Sponsorships

Add-on Packages

Some addons are limited on a first come first serve basis or have limited exclusivity.

Discounts available for BYO swag options. Prices are in AUD and ex GST.

Most add-ons must be contracted by 4 August 2026, 3 weeks prior to PyCon AU.

+ Video & Streaming

Available as an add-on package to any base sponsorship tier, our video sponsor helps PyCon AU capture the moment and stream and record all talks presented during the event.

With sponsor support, streaming will increase accessibility for remote attendees who cannot attend the conference in person due to distance or health requirements.

You can see last year's videos on YouTube, and videos are historically published same-or-next day!

<https://youtube.com/pyconau>

+ Exhibition Booths

The PyCon AU Exhibition runs 27-29 August during the specialist tracks and main conference. Sponsorships that include an exhibition booth, also include a complimentary staff ticket.

Standard Exhibition booth includes:

- ✓ Table + Power outlets
- ✓ 55" TV for BYO video or demos
- ✓ Space for pull up banners

Plus:

- ✓ Complimentary staff tickets
- ✓ Attendee lead scanning available (incl. name, email and affiliation)
- ✓ Participation in the community stage

Community Stage

This is a new space coming to PyCon AU 2026. A fourth room will be available for alternative content with pop up activities to keep everyone entertained.

The community stage will be available all day, especially during meal breaks. The sit-down 'cabaret' layout dining space will feature a mix of community & sponsored short-talks, panels, poster sessions and more. We're still finalising details and would love our sponsors to help shape this to be a meaningful and valuable experience for attendees.

Our vision includes:

- High-quality sponsor demos
- Open Source showcases & summits
- Charity Auctions
- A Mario Kart Tournament?

Perhaps your company would like to sponsor an activity or prize?

Community Sponsorship

PyCon AU is at its heart a community-first conference. Discounts are available for NFPs, academic institutions and community projects.

Not-for-profits & Academic Institutions

Academic institutions, not for profits and community led projects can receive a discount on standard (and above) sponsorships.

Reach out at sponsor@pycon.org.au to discuss how best to represent your organisation at PyCon AU 2026.

Community Projects & Contributors

Individuals attending PyCon AU 2026 to represent their project, package or community can purchase a **Contributor ticket** when registering.

Contributors receive minor sponsor acknowledgements including website and plenary address mentions.

Get in touch

Sponsor early to get the most out of PyCon AU 2026!

Call, or reach out to **sponsor@pycon.org.au** today and we'll assemble a sponsorship package that best showcases your brand, product or service.
